VacuuBond LVT®

PRE-APPLIED ADHESIVE

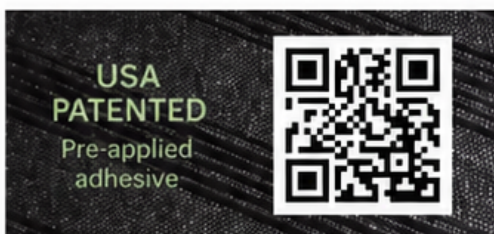

Industry Leading VacuuBond LVT®

One of the fastest-growing LVP flooring solutions on the market

Ideal for healthcare, hospitality, education, multi-family, mixed use, senior living, and other segments where turn around time is essential. VacuuBond® sets a new standard for durable, high-performance flooring

- Proprietary patented factory pre-applied backing
- Innovative design technology
- Precision-engineered glue strips with built-in air gaps to create a powerful suction bond when pressure is applied
- Reduces costs -VE Project
- Less labor intense, ensures lasting performance
- Zero VOC
- Advance expansion and contraction technology
- Flooring, wall panels, and interior substrates
- Waterproof and sound-absorbing properties
- No wait time -Walkable upon installation

FASTER INSTALLS

Less downtime.
Faster turnover.
Proven performance.

- 1 Install over existing floors — including commercial carpet, vinyl asbestos tile, tile, and epoxy.
- 2 Can be installed under existing cove baseboard.
- 3 Ready for heavy traffic immediately.
- 4 No waiting on glue to set.
- 5 Walkable upon installation.
- 6 Up to 75% faster installs versus glue-down LVT.
- 7 Less labor intensive and can help reduce project costs.
- 8 Pre-applied adhesive backing helps speed installation.
- 9 Suitable for flooring, wall panels, and interior substrates.

SLIP RESISTANCE EXCELLENCE

54
WET

65
DRY

The British BS7976-2 Pendulum Test is one of the most accurate measures of slip resistance, though not always recognized by brands like Shaw, Mohawk, or Karndean that use other methods.

Our Results:

- BS7976-2: 54 PTA (wet) / 65 PTA (dry) → Well above the 36+ “Low Slip Potential” standard
- NFSI B101.3: 0.45 = High Traction
- DIN 51131: 0.90 @ 42% = Very Low Slippage Risk
- DIN 51130: R13 rating

This outstanding slip resistance makes our flooring ideal for assisted living, healthcare, K-12, higher education, hospitality, and public spaces where slip-and-fall concerns are critical.
